

Trip to America

By Ariel Xiong

Stage 1: New York

To fly to New York took nearly about 15 hours, say honestly it's a hard process for us but when I first saw the scene of Times Squares and apartment there, you'll think this everything suffer this little torture.

When I went to other states, I compare New York with them, and I found New York completely different from others, modern busy and easy-going.

Stage 2: Boston

*I*n Boston, we had a lot of activities there. We studied in the Windham High School for several days, we have each buddy to lead us in the campus and teach us what we'll gonna to do. My buddy also is my host family, and her family treated me very nice.

Stage 3: Cleveland

We have seen NBA basketball and ice-hockey games there. I think this is the greatest experience for me in America. I have clapped with the JAMES there!!!
